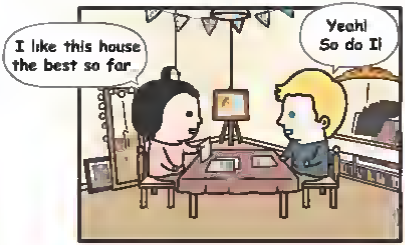
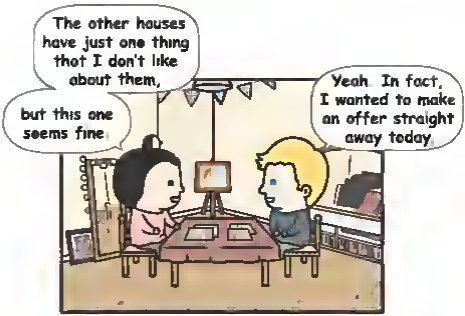
Moving Project - Buying

To move house,
it's important to find the right house.

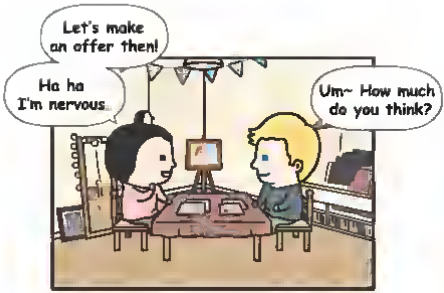
We've been having a very busy time going to viewings lately.



After we did this for a while, we finally started to have a few houses in our minds.



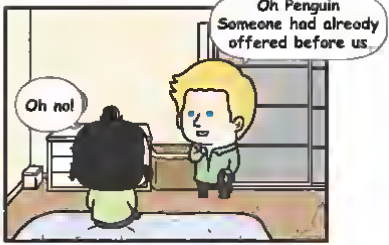
The other houses have just one thing that I don't like about them,
but this one seems fine.
Yeah. In fact, I wanted to make an offer straight away today.



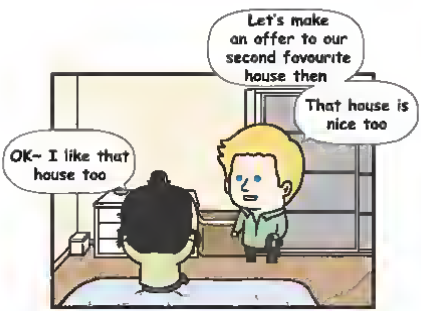
Finally we decided to make an offer on one house.

However,

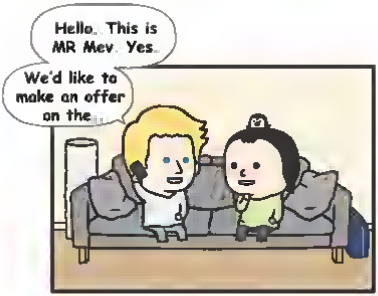
Well, did they reply?



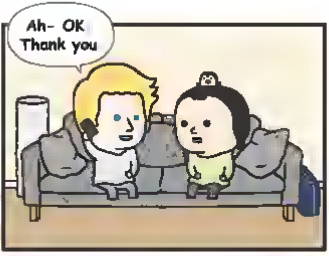
Oh Penguin
Someone had already offered before us
Oh no!



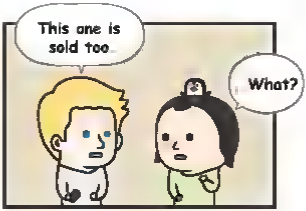
Let's make an offer to our second favourite house then
That house is nice too
OK~ I like that house too



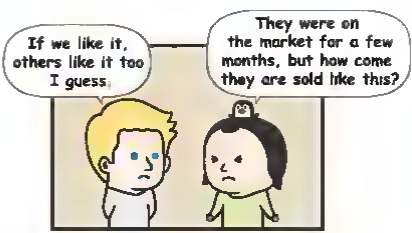
Hello. This is MR Mev. Yes.
We'd like to make an offer on the...



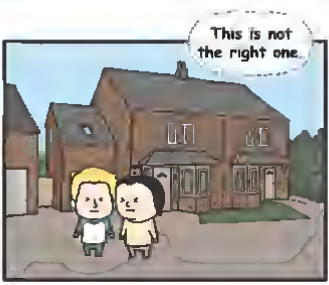
Ah- OK. Thank you



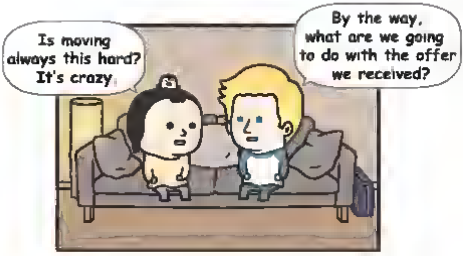
Twice in a row,
we had just missed out on buying
the houses that we liked.



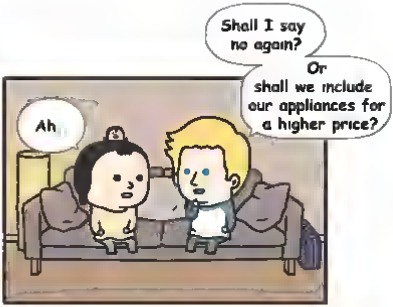
We started to feel very nervous.



This is not the right one.



Is moving always this hard? It's crazy.
By the way, what are we going to do with the offer we received?



We were getting tired from the stressful work, and then one day, Mev told me.

Ahhh
I just ..
I just want to sell it for the offer price. So it can be finished.

If you do that, you're going to lose your life by me.

Hm, hm. And I'll build our new home.
...More bricks day by day

Our moving project hasn't finished yet.
I'll return to this story in the future.
